Srihita Kotagiri

PROFILE

I am an undergraduate with a passion for website development. Eager to utilize coding skills, participate in hackathons, and contribute to meaningful projects.

SKILLS

- Proficient in HTML, CSS, JavaScript, and other web development languages
- Programming Languages (e.g. Python, HTML, CSS)
- Strong problem-solving and analytical skills
- Excellent communication and teamwork abilities

PROJECTS

- Developed a responsive website for a local charity, incorporating donation functionality and volunteer sign-up forms

WORK EXPERIENCE

Public Relations Co Lead
GDG On Campus | October 2024 - Present

- I work closely with experienced developers to understand project requirements and contribute to various aspects of web development, such as front-end, back-end, or full-stack development.

- Crafting clear and effective messages and building relationships with community members, sponsors and other organisations to enhance the group's reach and credibility.
